

## Technical Details

Tank capacities between 10 to 80 litres.

Constructed entirely of stainless steel (AISI 304).

Tank construction available in AISI 316L or AISI 316Ti.

Automatic shut of heaters at low water level.

Adjustment of the cleaning time & water temperature.

xx02 and xx12 models have a ultrasonic power adjustment feature: 50%, 75%, & 100%.

High efficiency piezoelectric ultrasonic transducers with special ceramics.
